

## UPGRADE KIT WINDOWS 10 SHAPING&NESTING

Contact your local representative immediately and get your customized, Plug&Play Windows 10 Shaping&Nesting upgrade NOW to keep your system operational and avoid incalculable costs based on production losses and complicated support by IT specialists.

### YOUR ADVANTAGES

- Fan less, industrial Windows 10 PC (Enterprise\_2016\_LTSB\_64Bit\_English) without peripheral items
- No risk of production downtime
- Easy to handle Plug&Play solution
- Latest Shaping&Nesting version with additional features and supportable operating system
- Easy to restore in case of breakdowns
- Only a fraction of the costs compared to complex troubleshooting

# UPGRADE TO A NEW, RELIABLE AND FAN LESS INDUSTRIAL PC WITH YOUR CUSTOMIZED SHAPING&NESTING CONFIGURATION ALREADY INSTALLED!

## WHY UPGRADE NOW?

If your production is dependent on a Shaping&Nesting computer controlled by an operating system older

than Windows 10, this is a serious risk to your business and might cause significant production losses.

## SCOPE

- Fan less, industrial Windows 10 PC (Enterprise\_2016\_LTSB\_64Bit\_English) without peripheral items
- Upgrade to Shaping&Nesting version SN6 if required
- USB stick for automated backups developed by Bystronic glass
- Preinstalled Wi-Fi and Bluetooth module
- Preinstalled TeamViewer software for easy remote access

Our service team is standing by to support your migration to a customized Plug&Play Windows 10 Shaping&Nesting upgrade kit.
